UASA, as part of organized labour through its affiliation with FEDUSA, is pleased to be part of the International Labour Conference (ILC) in Geneva, Switzerland.

The conference is observed under the theme: Achieving a just transition towards environmentally sustainable economies and societies for all. The opportunity to be part of the ILC is a stepping stone for UASA and FEDUSA to continue, on behalf of our members and workers, positively impacting the just transition process in South Africa.

Ensuring that no one is left behind is significant for the growth and sustainability of our economy, future, and people. We wish all delegates a fruitful and productive conference.
