

Women's Day Outreach

UASA female staff members spend time at Wings of Inspiration Care Centre in Krugersdorp for their women's Day outreach.

Following in the steps of the organisation, the ladies donated toiletries and cleaned the centre.

UASA encourages its members and fellow South Africans to remember those in need and give back to the community. As women we are nurturers in society and whenever we can, helping those in need is building our communities for the better.

UASA female staff wishes all women a happy women's day.
