UASA Operational Staff Training - Future Proof UASA.

UASA is proud of its Operational team that successfully participated in the annual training session for 2024 at Eagle Nest Hotel in Woodstock.

The training-themed "Future Proof UASA," led by UASA CEO Jacques Hugs, focused on the future growth and sustainability of UASA as a labour organisation in the South African economic sphere.

Motivational speaker Gavin Sharples reminded the team about the significance of teamwork and willingness to be part of the solution in the workplace. While, Prof. Carel van Aardt from the Bureau of Market Research (BMR) elaborated on various economic and labour aspects relating to the trade unions outlook.

CEO Hugs also encouraged the team to adopt a winning mindset by integrating opportunities arising to change and growth for the future.

Concluding the session, CEO Hugs handed over tokens of appreciation to several team members for outstanding performance in their respective sectors.
